

Student Mentoring Management System

Project Description

- The Student Mentoring Management System (SMMS) is a web-based platform that facilitates structured mentoring between faculty mentors and students. The system ensures continuous academic and personal development tracking, communication, and reporting.
- It enables faculty mentors to monitor mentee performance (academics, attendance, behavior, goals, grievances), while students can seek guidance, set goals, and record progress. The admin manages mentor-mentee mapping, configurations, and analytics reports.

Screens List

1. Login & Dashboard

1. **Login Page:** Role-based authentication (Admin / Mentor / Student)
2. **Dashboard:**
 - **Admin Dashboard:** Total mentors, mentees, pending reports, alerts
 - **Mentor Dashboard:** Mentee list, upcoming meetings, academic alerts
 - **Student Dashboard:** Mentor info, meeting history, tasks, feedback

2. User Management

- Add/Edit/Delete Mentor Profiles
- Add/Edit/Delete Student Profiles
- Import Bulk Users (Excel Upload)
- Assign Mentor to Students
- Role & Permission Management

3. Mentoring Session Management

- Schedule Mentoring Session
- Record Session Details (Date, Topics, Summary, Action Points)
- Upload Supporting Documents (PDF, Images)
- View Mentoring History
- Set Reminders / Next Meeting Date

4. Feedback & Remarks

- Mentor Feedback on Student Progress
- Student Feedback on Mentoring
- Summary Report per Student
- Mentor's Monthly / Semester Review

5. Reports & Analytics

- Mentor-wise Mentee Report
- Student Progress Report
- Department-wise Mentoring Summary
- Pending Mentoring Meetings/Sessions
- Export to Excel / PDF

Database Schema Description

1. Student

Purpose: To stores essential information about students, including their ID, enrollment details, contact information, and additional details.

Column	Description
StudentID	Primary Key. Unique identifier for each student.
StudentName	Name of the student.
EnrollmentNo	Student unique number for university.
Password	Student's Password for login to the system.
MobileNo	Student mobile number.
EmailAddress	Student email address.
Description	Optional notes or comments about the student.
Created	Timestamp when the student was created.
Modified	Timestamp when the student was last updated.

2. Staff

Purpose: To stores essential information about staffs, including their ID, details, contact information, and additional details.

Column	Description
StaffID	Primary Key. Unique identifier for each Staff.
StaffName	Name of the Staff.
MobileNo	Staff mobile number.
EmailAddress	Staff email address.
Password	Staff's Password for login to the system.
Description	Optional notes or comments about the staff.
Created	Timestamp when the staff was created.
Modified	Timestamp when the staff was last updated.

3. StudentMentor

Purpose: the relationships between students and their assigned mentors (staff members).

Column	Description
StudentMentorID	Primary Key. Unique identifier for Student-Mentor assignment.
StudentID	Foreign Key of MEN_Student.
StaffID	Foreign Key of MEN_Staff.
FromDate	The start date of the mentorship period.
ToDate	The end date of the mentorship period. (can be null if ongoing).
Description	Additional notes or remarks about the mentorship assignment.
Created	Timestamp when the mentorship record was created.
Modified	Timestamp when the mentorship record was last updated.

4. StudentMentoring

Purpose: To record details of individual student mentoring sessions.

Column	Description
StudentMentoringID	Primary key. Unique identifier for each mentoring session record.
StudentMentorID	Foreign key of StudentMentor.
DateOfMentoring	The date when the mentoring session took place.
ScheduledMeetingDate	Scheduled date for mentoring session.
NextMentoringDate	Scheduled date for the next follow up mentoring session.
IssuesDiscussed	Summary or list of issues/topics discussed during the session.
MentoringMeetingAgenda	Agenda or objectives planned for the mentoring session
AttendanceStatus	Student's attendance status during mentoring (e.g., Present, Absent).
AbsentRemarks	Reason or remarks if the student was absent.
IsParentPresent	Indicates whether a parent was present (Boolean: Yes/No).
ParentName	Name of the parent who attended or is relevant to the session
ParentMobileNo	Contact number of the parent.
StudentsOpinion	Feedback or opinion of the student about the session.
ParentsOpinion	Feedback or opinion of the parent (if present).
StaffOpinion	Feedback or remarks from the staff/mentor.
StressLevel	Stress level of the student during the session (e.g., low, medium, high).
LearnerType	Type/category of learner (e.g., Fast, Average, Advanced).
MentoringDocument	File path to any related document (e.g., reports, notes)
Description	Additional notes or remarks about the mentorship assignment.
Created	Timestamp when the mentoring record was created
Modified	Timestamp when the mentoring record was last updated.
